

Elementary/Middle School Rankings Based on Index Scores from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Mathematics

Sorted by: Name

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

District	School	No. of Students Included in the Index Score Ranking [†]	Current Year Mathematics Index Score and SE [‡]	Index Score Ranking of 375	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE [‡]	Index Score Improvement	Index Score Improvement Ranking of 373
State of New Hampshire	State of New Hampshire	87006	87.2 (+/- *)	219	88099	86.1 (+/- *)	1.1	178
Academy for Science and Design	Academy for Sci & Design-M	21	100.0 (+/- *)	1	12	98.3 (+/- 1.7)	1.7	147
Allenstown	Allenstown Elementary School	163	80.0 (+/- 2.0)	333	116	79.8 (+/- 2.5)	0.2	224
Allenstown	Armand R. Dupont School	81	78.0 (+/- 3.1)	347	156	78.8 (+/- 2.2)	-0.8	275
Alton	Alton Central School (Elem)	381	84.0 (+/- 1.2)	273	387	81.8 (+/- 1.3)	2.2	129
Amherst	Amherst Middle School	559	92.4 (+/- 0.8)	95	562	92.0 (+/- 0.8)	0.4	212
Amherst	Clark-Wilkins Elementary Sch	495	93.3 (+/- 0.8)	64	500	92.9 (+/- 0.8)	0.4	212
Andover	Andover Elementary School	149	90.3 (+/- 1.6)	151	151	85.8 (+/- 2.0)	4.5	51
Ashland	Ashland Elementary School	102	88.8 (+/- 2.1)	180	97	85.6 (+/- 2.3)	3.2	81
Auburn	Auburn Village School	411	94.1 (+/- 0.8)	42	435	93.7 (+/- 0.8)	0.4	212
Barnstead	Barnstead Elementary School	325	80.7 (+/- 1.5)	321	337	80.8 (+/- 1.5)	-0.1	245
Barrington	Barrington Elementary School	304	90.4 (+/- 1.1)	149	291	88.0 (+/- 1.3)	2.4	118
Barrington	Barrington Middle School	280	79.8 (+/- 1.8)	335	281	84.2 (+/- 1.5)	-4.4	351
Bartlett	Josiah Bartlett Elementary Sch	186	91.6 (+/- 1.3)	118	197	91.0 (+/- 1.4)	0.6	202
Bath	Bath Village School	44	95.9 (+/- 2.0)	13	45	95.6 (+/- 1.9)	0.3	219

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

“NA” Data is not available.

Elementary/Middle School Rankings Based on Index Scores

from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Mathematics

Sorted by: Name

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of “1” represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

Lincoln-Woodstock Cooperative	Lin-Wood Public School (Middle	63	86.0 (+/- 3.1)	241	57	81.1 (+/- 3.5)	4.9	43
Lisbon Regional	Lisbon Regional School (Elem)	99	90.5 (+/- 2.0)	143	98	91.6 (+/- 1.7)	-1.1	289

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores

from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Mathematics

Sorted by: Name

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

Elementary/Middle School Rankings Based on Index Scores

from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Mathematics

Sorted by: Name

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

District	School	No. of Students Included in the Index Score Ranking [†]	Current Year Mathematics Index Score and SE [‡]	Index Score Ranking of 375	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE [‡]	Index Score Improvement	Index Score Improvement Ranking of 373
State of New Hampshire	State of New Hampshire	87006	87.2 (+/- *)	219	88099	86.1 (+/- *)	1.1	178
Nelson	Nelson Elementary School	29	94.5 (+/- 3.1)	34	34	92.4 (+/- 3.3)	2.1	136
New Boston	New Boston Central School	367	93.6 (+/- 0.9)	58	330	92.2 (+/- 1.0)	1.4	163
New Castle	Maude H. Trefethen School	47	96.2 (+/- 1.8)	12	49	93.1 (+/- 2.8)	3.1	87
Newfields	Newfields Elementary School	119	94.3 (+/- 1.5)	38	117	95.9 (+/- 1.1)	-1.6	303
Newfound Area	Bridgewater-Hebron Village Sch	87	93.6 (+/- 1.7)	58	86	94.0 (+/- 1.7)	-0.4	258
Newfound Area	Bristol Elementary School	145	89.1 (+/- 1.7)	175	149	84.7 (+/- 2.1)	4.4	55
Newfound Area	Danbury Elementary School	37	81.1 (+/- 4.6)	317	37	77.3 (+/- 5.1)	3.8	66
Newfound Area	New Hampton Community School	80	92.3 (+/- 2.0)	98	77	87.8 (+/- 2.8)	4.5	51
Newfound Area	Newfound Memorial Middle Sch	199	80.5 (+/- 2.0)	326	223	81.4 (+/- 1.8)	-0.9	277
Newington	Newington Public School	31	88.4 (+/- 3.7)	196	34	92.4 (+/- 3.0)	-4.0	348
Newmarket	Newmarket Elementary School	284	90.1 (+/- 1.3)	155	286	88.6 (+/- 1.3)	1.5	158
Newmarket	Newmarket Jr.-Sr. High (Elem)	133	82.4 (+/- 2.3)	298	134	83.4 (+/- 2.2)	-1.0	283
Newport	Newport Middle School	69	77.4 (+/- 3.6)	349	140	77.3 (+/- 2.5)	0.1	230
Newport	Richards Elementary School	204	82.7 (+/- 1.9)	293	130	83.4 (+/- 2.2)	-0.7	272

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

“NA” Data is not available.

Elementary/Middle School Rankings Based on Index Scores

from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Mathematics

Sorted by: Name

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

District	School	No. of Students Included in the Index Score Ranking [†]	Current Year Mathematics Index Score and SE [‡]	Index Score Ranking of 375	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE [‡]	Index Score Improvement	Index Score Improvement Ranking of 373

Merrimack Valley	Salisbury Elementary School	58	93.1 (+/- 2.2)	69	64	87.5 (+/- 2.6)	5.6	32

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores

from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Mathematics

Sorted by: Index Score Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of “1” represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores

from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Mathematics

Sorted by: Index Score Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of “1” represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores

from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Mathematics

Sorted by: Index Score Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores

from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Mathematics

Sorted by: Index Score Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

District	School	No. of Students Included in the Index Score Ranking [†]	Current Year Mathematics Index Score and SE [‡]	Index Score Ranking of 375	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE [‡]	Index Score Improvement	Index Score Improvement Ranking of 373
State of New Hampshire	State of New Hampshire	87006	87.2 (+/- *)	219	88099	86.1 (+/- *)	1.1	178
Claremont	Disnard Elementary School	144	80.6 (+/- 2.4)	323	158	74.6 (+/- 2.4)	6.0	29
Nashua	Fairgrounds Elementary School	349	80.6 (+/- 1.4)	323	343	75.1 (+/- 1.5)	5.5	35
Franklin	Bessie C. Rowell School	182	80.5 (+/- 2.0)	326	186	80.5 (+/- 2.1)	0.0	236
Mascoma Valley Regional	Indian River School	303	80.5 (+/- 1.5)	326	297	83.4 (+/- 1.5)	-2.9	332
Newfound Area	Newfound Memorial Middle Sch	199	80.5 (+/- 2.0)	326	223	81.4 (+/- 1.8)	-0.9	277
Nashua	Dr. Norman W. Crisp School	228	80.4 (+/- 1.7)	329	234	80.1 (+/- 1.8)	0.3	219
Goshen-Lempster Cooperative	Goshen-Lempster Cooperative Sc	103	80.4 (+/- 2.6)	329	100	74.2 (+/- 3.0)	6.2	27
Contoocook Valley	Pierce Elementary School	48	80.4 (+/- 4.1)	329	52	84.6 (+/- 3.4)	-4.2	350
Stratford	Stratford Public School (Elem)	61	80.3 (+/- 3.6)	332	55	79.6 (+/- 3.7)	0.7	197
Allenstown	Allenstown Elementary School	163	80.0 (+/- 2.0)	333	116	79.8 (+/- 2.5)	0.2	224
White Mountains Regional	Jefferson Elementary School	50	80.0 (+/- 3.7)	333	41	83.9 (+/- 3.8)	-3.9	347
Barrington	Barrington Middle School	280	79.8 (+/- 1.8)	335	281	84.2 (+/- 1.5)	-4.4	351
Hillsboro-Deering Cooperative	Hillsboro-Deering Elementary S	352	79.7 (+/- 1.4)	336	350	77.2 (+/- 1.5)	2.5	110
Fall Mountain Regional	Walpole Middle School	132	79.4 (+/- 2.5)	337	131	78.5 (+/- 2.5)	0.9	187

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Littleton	Mildred C. Lakeway School	290	91.6 (+/- 1.2)	118	309	85.5 (+/- 1.5)	6.1	28

† Number of students who contributed to the index score.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores

from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Mathematics

Sorted by: Index Score Improvement Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

District	School	No. of Students Included in the Index Score Ranking [†]	Current Year Mathematics Index Score and SE [‡]	Index Score Ranking of 375	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE [‡]	Index Score Improvement	Index Score Improvement Ranking of 373

Littleton	Daisy Bronson Junior High Sch	68	85.3 (+/- 3.2)	256	53	83.0 (+/- 3.7)	2.3	124

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores

from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Mathematics

Sorted by: Index Score Improvement Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores

from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Mathematics

Sorted by: Index Score Improvement Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

Exeter	Main Street School	150	96.5 (+/- 1.1)	10	166	97.7 (+/- 0.8)	-1.2	293
Nashua	Birch Hill Elementary School	313	92.3 (+/- 1.1)	98	301	93.6 (+/- 1.0)	-1.3	295

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.

Elementary/Middle School Rankings Based on Index Scores

from May 2009 NH-Alt and October 2009 NECAP Statewide Assessments

Content: Mathematics

Sorted by: Index Score Improvement Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

Sorted by: Index Score Improvement Ranking

The data provided in these rankings are based on the same performance index method that is used to produce Adequate Yearly Progress index scores. Schools and districts receive a rank based on their index score. A rank of "1" represents the best performance. When a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools or districts that have the same index score (or the same improvement in index score) earn the same rank. The schools and districts are sorted three ways: alphabetically, by index score ranking, and by improvement ranking. Rankings are assigned by content area. Writing results were not ranked at grades 5 and 8 because a pilot test was administered and no scores were produced and the grade 11 writing test is never ranked because it is a 1-item test.

District	School	No. of Students Included in the Index Score Ranking [†]	Current Year Mathematics Index Score and SE [‡]	Index Score Ranking of 375	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE [‡]	Index Score Improvement	Index Score Improvement Ranking of 373
State of New Hampshire	State of New Hampshire	87006	87.2 (+/- *)	219	88099	86.1 (+/- *)	1.1	178
Pembroke	Pembroke Village School	0	-	A	0	-	-	B
Monadnock Regional	Sullivan Central School	10	-	A	29	93.8 (+/- 3.6)	-	B
Nashua	The Phoenix Program (M)	14	40.0 (+/- 7.3)	375	0	-	-	B
Virtual Learning Academy Chart	Virtual Learning Academy (E)	0	-	A	0	-	-	B
Fall Mountain Regional	Walpole Primary School	0	-	A	39	90.3 (+/- 3.2)	-	B

[†] Number of students who contributed to the index score.

[‡] There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

"A" A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

"B" A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

"NA" Data is not available.
